

Hygienic & High Purity Process Solutions

Quality Policy

Puresil-Techniflex are a leading manufacturer and supplier of high purity and hygienic process transfer components to the Pharmaceutical, Biotechnology, Food, Dairy and Brewery industries, Scientific and Medical laboratories.

This quality policy defines the way in which Puresil Techniflex will consistently meet its expected outcomes regarding Quality performance.

It is our company policy that our activities, products and services satisfy our customers' needs and expectations.

Our company policy ensures that we will fulfil our compliance obligations regarding statutory, regulatory and other requirements to which we subscribe. We will set appropriate objectives for improvement (normally during our Management Review Meetings).

Our primary objective is the continual improvement of our management system. To enhance our Quality performance, our customer satisfaction and the satisfaction of all interested parties. This policy is published on our web site and is available to any interested party.

All employees at PTFX have been made aware of the requirements and importance of our Quality Management Policies and copies are available for both internal and external use upon the authority of the Managing Director.

This Quality Policy is continually reviewed as part of the management review process.
